

Sewer Manhole Inspection

Inspection of Manholes

- Need GPS Unit – NO
- This will only show manholes that are being flushed
- This map shows the manholes that have not been inspected in the last 4 months red and the ones that have been inspected in the last 4 months gray.
 1. Select the manhole
 2. Edit
 3. Review the data to see if there is any Unknown or incorrect attributes you can visually see and update.
 4. Change Last Maintenance Date to the date you did the inspection
(This will change the manhole from red to gray so you know where you have inspected)
 5. Submit
 6. With the Manhole still selected Scroll to the bottom and click Manhole Inspection
 7. Add
 8. Fill out all Attributes
 9. Submit
